machine

RELIABLE PARTNERS

Customer's requirements are in the area of special importance.

We provide flexible terms of delivery and storage.

We try to quickly manage all issues.

Thanks to own warehouse and cargo fleet the company can provide uninterrupted product delivery.

Among regular customers are large companies of Tver and Moscow Regions such as: Paroc, Paulig, Orion, Aerostone, Danfoss, KSK

AlbaPlus, LucksUpac, UBG, Petrovich, KSK, Tverskaya printing plant.

We strive for transparent and understandable cooperation at each stage of interaction.

AeroStone®

LONG-TERM PLANS

The company is planning the construction of a woodworking enterprise in Bela Kushalsky.

The company has acquired a production building (2000 m²) in Orsha.

The company is actively engaged in the development of the brand, since in the future we are planning to enter the European and Asian markets. First contracts have already been signed. In the short term we'll start shipping.

In the future we want to launch the product output with more deep wood processing, such as thermodox.

It is stable to various weather changes thanks to being dried to 2-3% humidity. For fabrication sawdust is mixed with plastic, and plastic can be reused.

SOCIAL RESPONSIBILITY

We try to be thoughtful of natural resources and understand the importance of waste-free production. Immediately it was decided to take a course on creation of full cycle production.

Jobs for residents of Tver and Tver region with a decent level income.

The company cooperates with "Penal Colony No. 4" in Torzhok. Prisoners work on the line for sawing forest. Later, after being released, many of them come to work for us in production. 15 people have already been employed on an ongoing basis.
